

Product Specification Report

1/0718

Biological parts washer made of stainless steel, specifically created for use with BIOPOWER CLEANER.

BIOPOWER SYSTEM L - XL - XXL

Parts washer

BIOPOWER SYSTEM L - XL - XXL is a stainless steel parts washer, to clean mechanical parts with the included brush. It is made to effectively and quickly clean mechanical parts and to remove oil and grease without the use of solvents.

BIOPOWER CLEANER is non-toxic and non-flammable. With the help of BIOPOWER TABS, containing billions of micro-organisms, the liquid is regenerated. This keeps it effective over a long period of time, and makes it safe for the operator and the environment.

Unlike solvent based systems, the cleaning liquid does not have to be substituted every month. The cleaning solution we offer can last up to 15 months.

TECHNICAL SPECIFICATIONS

	L	XL	XXL
Tube size	84,5(L) x 64(W) cm	128(L) x 70(W) cm	160(L) x 70(W) cm
Tube height	102 cm		
Washing tub height	13 cm		
Tank volume	80 - 100 l		
Pump capacity	1140 l/h		
Heating power	1.3 kW		
Power consumption	260 W/h (-25% in Eco mode)		
Maximum load	170 in the centre - 200 kg distributed		
Working temperature	38-43 °C		
Material	Stainless steel		
Drain	41 cm tube		
Power supply	230 V 1 phase + T		
Tank filtration system	140 µm cartridge		
Tube filtration system	700 µm stainless steel mesh		
How to use	Standard (38 °C), Eco (32 °C - energy saving), Boost (43 °C)		
Included accessories	Tap, brush		

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
